AIR FLEX CUSHIONING

Cardiotech® X9 AC CLUB SERIES

www.cardiotech.com.au

SUPERIOR TECHNOLOGY & HEALTH CLUB FEATURES

A 1ST... NOW WITH A HEALTH CLUB AC MOTOR!!!

This new generation 2.5HP AC (torque & power) fan cooled motor is special.... REALLY special!!! It's nearly impossible to find a treadmill in health clubs that don't use them!

The fact is virtually all other 'home' treadmills have the inferior DC motor. The AC motor will last for the life of the treadmill, how's that for value! We're talking 10 times the life of ordinary treadmills! The difference is there's no parts to wear out - they are brushless. And just like a health club treadmill they're whisper quiet and silky smooth!

THE LUXURY DECK – THE SENSATIONAL FEELING OF FREEDOM!

This exceptionally strong deck gives you the extra comfort and space for a long stride! Just like walking on the beach... you'll have no restraints. Plus with all the deck space you need you're free to let your mind wander.

THE CUSHIONING – NOT ONE BUT TWO SYSTEMS!

Air Flex Dual Cushioning – like walking on grass! CardioTech's twin ultra low impact cushioning systems provide ultimate support for your joints. Pictured is a section from the network of high density rubber cushions designed to absorb impact and protect your joints, ligaments and back. Whether running or walking... with Air Flex you're protected. Air Flex is a top line feature, exclusive to CardioTech.

THE QUALITY – ALPHA ENGINEERED FOR OPTIMUM PERFORMANCE

'New Generation Technology' makes the **X9 AC Club Series** a revolution in treadmill design. With Dynamic Stability Control, dual cushioned Air Flex deck and double weave/anti static belt, you'll achieve a much smoother ride.

Our precision machined high tensile steel frame is guaranteed for life! Together with 50mm rollers to reduce vibration and increase belt life, plus stainless steel ball race bearings... that's ultimate durability.

THE EXPERTS AGREE...

"I'd like a dollar for every kilometre I've run over the last 30 years. I only wish I'd done more of them on CardioTech. The Air Flex Dual Cushioning system prevents most of the impact on your joints – with each foot strike it's like running on soft natural trails."

ROD CEDARO (M.APP.SC.)

Twice Winner of the Brisbane Marathon
& Australian Ironman Triathlon Champion

"Walking is the best way to get fit and the best way to walk is on your very own treadmill... in private, no time limits. Imagine... you can run in your pyjamas with your favourite TV show or music and hop on for a 2 min express workout or a 20 min jog!! Invest in a Sooooooper CardioTech treadmill and get your body looking the way it's supposed to – lean and wobble free!! I could not and would not live without my CardioTech treadmill!"

STEP INTO HEALTH!

STEP ONTO CARDIOTECH

PLUS THE ESSENTIALS...

HAND GRIP SMART KEYS

Go from a gentle walk to a brisk run. Best of all, they're on your hand rail so you maintain pace and rhythm conveniently at your fingertips.

LED DISPLAYS

Gives instant feedback at a glance for speed, body fat, time, distance, incline, pulse, steps... and calories!

'PULSE GRIP' HEART RATE SENSOR

Your Heart Rate... it's your way of knowing if your body is working hard enough... for general fitness and burning fat. Set your pace for optimum fat-burning performance within your Target Heart Range – we'll show you how on one of 3 Heart Rate Control programs!

PHONE & TABLET CHARGER

When syncing your music through bluetooth you'll never have to worry about losing charge. Connect via the USB charging port right there on your console.

12 LEVELS POWER INCLINE

Select from 12 levels of incline with quiet, smooth touch control.

CONSOLE SMART KEYS

At a single touch, fast track your speed and incline using the 8 console Smart Keys – reach your optimum speed or incline in just seconds!

CALORIE COUNT – JUST WATCH THEM BURN!

'EMERGENCY STOP' SAFETY KEY

If the unexpected happens, power to the **X9 AC Club Series** instantly cuts out.

MAGAZINE / IPAD RACK & ACCESSORY HOLDERS

Catch up on your reading and the time will fly. And with two holders, one for your water bottle the other for your iPad / iPod / mobile phone you've got it all!

AUTOMATIC MAT CENTRING

Adjust your mat? No Need! The CardioTech **X9 AC Club Series** automatically controls drift. No tools. Easy!

SOFT DROP – FOLDS EASILY

Unlatch the deck for safe hands-free lowering. Precision hydraulics support the weight – makes folding and storage a breeze!

CLUB SERIES

BE
INSPIRED.

NEW GENERATION CONSOLE...

SUPERB HEALTH CLUB FEATURES! THE ULTIMATE LUXURIES IN A HOME TREADMILL...

HEART RATE CONTROL – ADVANCED 3 WAY SYSTEM... THE BEST AVAILABLE!

On the **X9 AC Club Series** your heart has complete control with 3 exclusive programs controlling: (1) Speed; (2) Incline; and (3) Speed and Incline... automatically! Your heart keeps you exercising only as hard as you need to... no more... no less! For optimum benefit it's important to train in your Target Heart Rate zone. You need Heart Rate Control!

HEALTH CLUB FEATURES... HEALTH CLUB FEEL!

The average home treadmill has just 6 programs. On the **X9 AC Club Series**, you have 18 – how's that for motivation! It's like having your very own health club treadmill right there, at home. Sophisticated... yet so easy to use.

MATRIX TRACKING – EASY TO FOLLOW, DESIGNED TO INSPIRE!

The higher the matrix column, the more challenging it gets! You know how far you've come and what lies ahead. That's your motivation. Without this, it's like exercising blind!

LED DISPLAYS – IT'S BEAUTIFUL AND FUNCTIONAL!

The LED displays emit a radiant glow for better visibility in any light – even no light. It's a top-line feature usually reserved for health club machines many times the price.

Five key screens keep you focused on the task at hand – such as Speed; Time; Distance; Calories Burned; Incline/Pulse; and Steps.

“AIR COOL” CONSOLE FAN... NO SWEAT!

The CardioTech **X9 AC Club Series** built-in 'Air Cool' fan provides instant relief. Be cool... it's a breeze!

THE X9 AC CLUB SERIES IS SMART... VERY SMART!

18

HEALTH CLUB PROGRAMS – HOW'S THIS FOR INSPIRATION! CHALLENGE YOURSELF WITH THE LARGEST CHOICE OF CUSTOMISED AND PRE-SET PROGRAMS.

6 VARIABLE HILL CLIMBING PROGRAMS

Etched calves, firm thighs, tight buttocks. No better way to define shape and build strength – revealing curves... lifting... sculpting. You'll develop tone where you didn't know you could!

3 SPEED PROGRAMS

Energised. Liberated. Unstoppable – each week you're improving! Choose a Speed Interval Program designed to alternate between 'hard' and 'easy' and you'll recover strength between each burst of energy!

2 CUSTOMISED PROGRAMS

That's right, it's your design! You know your limits, now don't hold back! Be creative, program your ultimate personal challenge on your two user settings. You can replicate your favourite walk or riverside run!

1 BODY FAT CALCULATOR

Keep an eye on your body fat percentage so you can adjust your training and fast track your fitness goals.

3 HEART RATE CONTROL PROGRAMS!

For fast efficient weight loss. There's no cheating your heart! Just like a personal trainer, 'Heart Rate Control' calculates your Target Heart Rate. Automatically your treadmill adjusts your speed or incline, or both speed and incline together in tune with your heart for the optimum workout.

3 TARGET TRAINING PROGRAMS

Achieve your goals quicker and beat your best performance! It's about setting your goal – working towards it – raising the bar a bit at a time. A wedding coming up? A holiday? Maybe even a marathon or mountain climb! They're all good reasons for you to get fit and improve your shape. It's so simple... choose your goal, program your target and get moving – just watch the display track your progress. That's your inspiration!

1 MANUAL PROGRAM

Freedom to adapt your speed and incline as you go.

BLUETOOTH BASS- FLEX SPEAKERS FREEDOM FROM HEADPHONES!

Pumped and ready to take on the world!? You bet! Simply pair your Android or Apple 'smart' device to the **X9 AC Club Series** and stride it out to your favourite tunes. With 'Bass-Flex' technology you'll have excellent sound quality without distortion – it doesn't get any better!

SEE THE WORLD... AND FORGET YOU'RE EVEN WORKING OUT!

The X9 AC Club Series features Fit Hi-Way App's innovative wireless technology. It's something quite special, you'll be immersed in places you've never seen, wondering what's around each corner.

The App technology brings your fitness training from outdoors indoors by simulating the actual incline as if you were outside running.

Train, compete or maintain your fitness level using predefined programs or plot your own route... maybe lap the Eiffel Tower... Hong Kong Harbour or train following the path of a famous marathon! Run for fun anywhere Google Maps can go!

 **Bluetooth**
(Smart devices not included)
